

## LIST OF PRIMARY CAUSES OF RENAL FAILURE

For item 15 on the CMS-2728 (8/15): Primary Cause of Renal Failure should be determined by the attending physician using the appropriate ICD-10-CM code. Enter the ICD-10-CM code for the primary cause of failure on Field #15 of the CMS-2728 Form. If there are several probable causes of renal failure, choose one as primary. An ICD-10-CMCode is effective as of October 1, 2015.

Note: This code list below does **not** include all renal-specific ICD-10 CM codes; please use the ICD-10 CM Manual to validate an appropriate code. CMS has posted a complete list of the 2016 ICD-10-CM valid codes and code titles on the CMS website at <a href="https://www.cms.gov/Medicare/Coding/ICD10/2016-ICD-10-CM-and-GEMs.html">https://www.cms.gov/Medicare/Coding/ICD10/2016-ICD-10-CM</a> validate an appropriate code.
